CAMBODIA. Tical, CS 1208 (1847). Ang Duong. NGC EF Details—Chopmarked. KM-36; Daniel-79. Thick flan variety with chopmark. A pleasing, boldly struck, and gray toned coin. One bold "chopmark" has been applied, quite tastefully, to an area of the reverse field and does not impinge upon the design. Rather than detract from the beauty of the coin, it would seen to add a point of historical interest.

CAMBODIA. Sisowath Monivong Coronation Gold Medal, 1928. PCGS SPECIMEN-65 Gold Shield. Lec-145; Daniel-M20f. Mintage: 100. Plain edge, hallmark and "OP" stamped on edge. Bust of King Sisowath Monivong left within circular border, legend around; reverse: Royal seal in relief, Khmer legend around with his full regnal title, "Preah Bat Samdach Preah Serei Monivarman Krom Luang Chao Chakarbangsa Sisowath Monivong Nai Preah Reacheanachak Kampuchea" (His majesty, glorious lord scholar-protector; His highness, lord of land and sea, Sisowath Monivong of the Kingdom of Kampuchea). Sharply struck, as would be expected being a Paris mint product, with excellent definition of the fine details of the high-relief intricate design features. Includes original case of issue. Sisowath Monivong, like his father and uncle, was more of a figurehead for the French administration rather than an independent ruler. In the 1930's, Communism became popular in Cambodia with the parties intent to overthrow the French administration. The invasion and subsequent occupation by the Japanese in early 1941 led to the King's retirement to Kampot in late 1941. He died at Bokor the same year. He was given the posthumous title, "Preah Karuna Preah Sisowath Monivong Preah Khatiyakot.

GREAT BRITAIN. Trade Dollar, 1909-B. Bombay Mint. PCGS MS-64+ Gold Shield. KM-T5; Mars-BTD1; Prid-19. Tied for third finest certified of the clean date with five other examples on the PCGS population report, only surpassed by 11 other pieces (PCGS MS 65[10] & MS 65+[1]. A fascinating survivor showing severe die degradation on both sides indicative of prolonged usage not normally encountered in this series. Upon close inspection the obverse exhibits several long thin curved cracks, the most noticeable one starts as a straight crack at 9 o'clock that goes into the field just past the "O" of "ONE" bisected by a perpendicular crack in an upward curve through Britannia's hand continuing to her face with traces that suggest termination on her upper forearm resting on the shield. A second less noticeable crack appears at about 4 on the solid central inner border extending out in a steep downward curve under Britannia's feet continuing in an upward direction that finally terminates at about 9 o'clock near the edge. The reverse displays fairly aggressive dies polish lines primarily concentrated in the center with four straight cracks unevenly spaces around the circumference that extend from the edge into the central fields and devices. A beautifully executed piece exhibiting light mottled tone while boasting strong satiny surfaces with minor trivial breaks in the smooth lustrous fields. A highly interesting example with lots of character and subtle yet distinct diagnostics perfect for the academic collector with a discerning eye looking for completeness.

1909-B年英國貿易銀元站洋壹圓銀幣。孟買鑄幣廠。PCGS評鑑第三高分,另有五枚同分,僅十一枚更高分(PCGS MS 65[10] MS 65+[1])。兩面均有模具降解痕跡,顯示其使用時間長,此現象在同系列中鮮見。正面可見幾條細長的彎曲裂痕,最明顯一條位於九點鐘方向,延伸超過直底板"ONE"中的"O",並被另一條垂直從持盾牌上臂延伸至女神肖像臉側的裂痕截開。另一條較不明顯的裂痕位於四點鐘方向,從中央內圈蜿蜒至女神腳底後又向上延伸,直至九點鐘方向的邊緣。反面模具拋光痕跡頗明顯,主要集中在中央。另有四條直裂痕,分佈不均,由邊緣延伸至中央底板及圖文。淺色點狀包漿,綢緞質感強烈,光滑的底板略帶微笑裂痕。別具一格的一枚,適合研究型藏家用以完善集藏。

GREAT BRITAIN. Trade Dollar, 1909-B. Bombay Mint. PCGS MS-64 Gold Shield. KM-T5; Mars-BTD1; Prid-19. A lovely example with light attractive sunset hued tone in the peripheries primarily contained to the outer devices. The satiny surfaces show minor evidence of handling consistent for the grade of this near Gem survivor with cartwheel luster that accents the frosty devices. Interesting to note that both the obverse and reverse display a short thin crack each, at 9 on the obverse in an upward direction through the Greek border terminating at that near the solid inner border. While the reverse displays a well hidden vertical crack at 6 through the Greek border terminating midway between the bead just above the vertical portion of the outer border and the solid inner border. Another interesting example of the date struck with different dies than the PCGS MS-64+ also in this sale that show several long cracks.

INDIA. Portuguese India. Goa. 12 Xerafins, 1790. Maria I. NGC MS-63. Fr-1487; KM-187. Weight: 4.90 gms. Crudely produced as is typical, yet fully brilliant throughout, with a meandering crack in the planchet and a small area of bluntness in the design that contributes to the uniqueness of this coin's appearance. While attributed as the 1790 date, it seems indeterminable upon close inspection, with die linking being a possible way to find certainty. As it is, the single finest example that NGC has attributed to this date, making it a prize for either the specialist or type collector that seeks elite quality items.

PHILIPPINES. Japanese Occupation. Homma Medal Obverse Die Trial in Lead, ca. 1942. VERY FINE. cf. Basso-150. Weight: 70.74 gms. By Clemente Zamora. An important early die trial for the already scarce medals issued by General Masaharu Homma, commander of the Japanese 14th Area Army, who oversaw the Japanese conquest of the Philippines. This trial is struck on a nearly square piece of lead which has been machine smoothed on the side in which the trial was struck. The obverse die trial contains the date "1942 P.I." stamped below. On the reverse is an incised inscription — "Trial/ Lead Plate/ C. Zamora/ 8-4-42/ Manila, P.I." — which is seemingly the signature of the engraver who created the dies and produced these medals in Manila for the Japanese forces. Well executed, this piece shows full design detail on a surface remarkably free of corrosion. A VERY RARE and historically significant piece that would fit well into any collector of World War II numismatic related material, especially that of the Pacific Theater.

1942年日本佔領比島遠征紀念獎章。 重70.74克。Clemente Zamora鑄。本間雅晴中將發行章牌的早期模具試鑄作品。本間雅晴為日本第14軍的司令,指揮日軍於菲律賓的作戰。此枚樣章鑄於一塊近方形的鉛塊,邊緣經打磨光滑。正面試鑄模具帶"1942 P.I."字樣刻於下方。反面鑄有"Trial/ Lead Plate/ C. Zamora/ 8-4-42/ Manila, P.I.",似乎是模具及章牌雕刻家的落款。這些章牌是於馬尼拉為日軍所鑄。製作精良,此枚細節纖毫畢現,幣面全無服飾痕跡。極罕且具歷史意義。收藏二戰時期,尤其是太平洋地區錢幣的藏家萬勿錯過。

Mint State Silver Commodore Matthew Perry Treaty with Japan Medal From a Mintage of Just 20 Specimens

原廠品相美國準將馬修佩里美日條約銀章 發行量僅20枚

40370

UNITED STATES OF AMERICA. Commodore Matthew C. Perry Treaty with Japan Silver Medal, 1854 (1856). Philadelphia Mint. PCGS SPECIMEN-62. Julian PE-26. Diameter: 63 mm. By Francis N. Mitchell. Obverse: Bust of Perry left; Reverse: 14-line inscription within wreath. Richly original surfaces are bathed in warm pewter gray patina, the protected areas around the rims and design elements with deeper olive-russet and cobalt blue highlights. Semi-reflective fields shine forth nicely as the surfaces dip into a light, the devices satiny in texture with sharp to full striking detail. Smoother in hand than one might expect at the assigned grade level, this premium quality specimen is nearly in the Choice category.

Of this medal, only one example was struck in gold, which was awarded to Commodore Perry himself. The gold medal was thought to have been lost and possibly melted until it appeared at auction in 2007. Accompanied with its original box the gold medal sold for \$165,000 at auction in Rockland, Maine. Another 20 examples were struck in silver, several of which were awarded to Perry's higher ranking officers, and 107 examples were struck in bronze for award to lower ranking officers and sale to the public.

Through "battleship diplomacy" Commodore Perry was able to negotiate the opening of the then-closed Japan to foreign trade. By anchoring a group of warships in Japanese waters, Perry was able to force negotiations with Japan, demanding permission to deliver a letter from President Millard Fillmore. The boats were referred to by the Japanese as "Black Ships," a term that later became synonymous with threatening foreign powers. The final recorded military mission in Japan that involved ninja activity was during this event. The Japanese sent ninja Sawamura Yasusuke to board Perry's ship with instructions to gather information that would reveal the commodore's intentions. While the ninja was successful in boarding the commodore's ship, the success of the mission is questionable. Sawamura Yasusuke was able to gather some paper documents as well as make detailed descriptions of the ships. However the linguistics barrier hindered him from gathering documents that were of any strategic value. When translated, the documents showed to be letters describing, "extolling the delights of French women in bed," and "British women in kitchens." Essentially letters from sailors describing exploits with women and cooking recipes.

Of the 20 examples struck in silver, some are impounded in institutional and museum collections, and several others are impaired, these facts confirming the fleeting bidding opportunity represented in our offering of this handsome piece.

1954年美國準將馬修佩里美日條約銀章。費城造幣廠。直徑63 mm。由Francis N. Mitchell鑄造。正面佩里頭像向左;反面:14 行銘文,禾穗圍繞。原廠幣面,錫灰色澤,幣緣及設計的凹入部分透現深橄欖赤褐色及鈷藍色澤。半鏡面底板在燈光下轉動可見粼粼光澤,緞面圖文,細節完整。此評分而言品相極佳,值得更高評分。 此版僅有一枚金鑄,當時頒予準將佩里本人。 及後此金章了行蹤成謎。曾被誤以為已被熔毀,直至在2007年公開拍賣中重現,方才解開謎團。連原盒的金章當時在緬因州的拍賣以165,000美元成交。另有二十枚同款的銀章,有數枚頒予給佩里的上司,另外107枚銅章則頒予給佩里的下屬及進行公開銷售。

通過炮艦外交,準將佩里成功鬆綁日本的鎖國政策。當時佩里率艦隊駛入日本海域,並帶著美國總統米勒德-菲爾莫爾的國 書向江戶幕府致意,史稱黑船事件,及後黑船亦泛指外交的威嚇手段。這次亦是最後一次有歷史記錄日本派出忍者參與軍 事行動。

當時,日本忍者澤村康介奉命登上佩里的軍艦,意在搜集情報,揭露佩里的意圖。忍者雖成功登船,但只成功蒐集到一些文件及了解到軍艦的內部結構;基於語言障礙,他在搜集有戰略價值的情報時遇上困難。翻譯情報時,文字描述如:"在床上頌揚法國女性的歡樂"及"廚房有英國女性",都是船員的信件描述如何剝削女性及食譜,軍事價值成疑。二十枚的銀章中,有些已納入博物館藏,另一些亦曾經修複,此枚銀章歷史價值豐富,品相首屈一指,是千載難逢的競投機會。

Extremely Rare "Dragon & Phoenix" Pattern

極罕龍鳳銀樣幣

41067

(t) CHINA. Silver 5 Jiao Pattern, 1989. Dragon & Phoenix Series. NGC PROOF-69 Ultra Cameo. cf. KM-265 (for regular issue). This exceedingly interesting specimen features the alluring "Dragon and Phoenix" type that was used across multiple gold and silver bullion issues—this being the 5 Jiao. While the 1990 regular issue is not difficult to encounter—with a mintage of 55,000—this example (the pattern issue from the year prior) is INCREDIBLY RARE and almost never seen at auction. Our only other sales record for this type emanates from our August 2011 Hong Kong auction, where one sold for \$101,575 (lot 90189). A great opportunity to acquire an exceptional modern rarity with a great design motif.

1989年5角銀樣幣。龍鳳系列。 龍鳳設計可見於不少金幣及銀幣。此枚為5角銀樣幣。1990年普通版並不難尋到,其發行量達55,000枚。但早一年的樣幣則極其珍罕,幾乎未曾於拍賣場上出現過。我們在2011年香港夏拍中曾以101,575美元拍出一枚(拍品編號90189)。將稀世珍品納入藏中的難得良機。

Attractive Low Mintage 5 Ounce Gold "Qilin"

誘人5盎司麒麟金幣 稀罕發行量

41068

CHINA. Gold 500 Yuan, 1995. Unicorn Series. NGC PROOF-69 Ultra Cameo. Fr-B101; KM-805; NPB-14a. Mintage: 99. A VERY RARE and popular issue, brilliant and attractive with hard mirrored fields and frosted cameo devices. Inscribed on edge with "62", with corresponding certificate of authenticity serial # 62, and sold with original display box. Free of tone, haze or fog.

Often times the translation of Qilin from Chinese to English is "Unicorn", but this is somewhat misleading as they can be found depicted with one or two horns. In modern times a separate word "Dujiaoshou" is used in Chinese for "Unicorn" and though a number of Chinese mythical creatures can be found depicted with one horn a Qilin with one horn would be called a "one-horned Qilin" in Chinese not a "Unicorn"

1995年500元精製金幣,麒麟系列。 發行量:99枚,極罕且廣受追捧的版別,光滑鏡面底板,霜化圖文。邊齒鐫刻"62",含同號證書及原盒。無氧化、起霧或朦朧。

麒麟的英文翻譯通常為Unicom(獨角獸),容易造成誤會。此動物在描繪中,常以頭頂一角或二角的形象出現。Unicom在現代中文的翻譯為獨角獸。中國不少神話動物頭上均有角。頭上有一角的麒麟應被稱為獨角麒麟,而非獨角獸。

(t) CHINA. Tea Money Brick, ND (1975-85). UNCIRCULATED. Mitch-4144, Opitz-pg. 339 (second piece illustrated). Weight: 1112 gms; dimensions: 237x187x23 mm. China National Tea Corporation Tea Money Brick (39 Ounces). The front is divided into 3 panels, 5 stars in the upper panel; the center exhibiting a gate with a star in the upper arch; and the bottom panel reading: "Zhongguo Chaye Gongsi" (China National Tea Corporation) in line one, and "Zhaoliqiao Zhuancha Chang Zhizao" (Made by the Zhaoliqiao Brick Tea Factory) in line two. The reverse is perforated into 16 panels, each decorated identically with a motif similar in outline to an 'endless knot', and with a stylized "88" in the center.

Originally, tea bricks were used as a form of currency throughout China, Tibet, Mongolia, and Central Asia. They were sometimes preferable to metallic currency due to their ready use as food and perceived medicinal benefits when brewed. Tea bricks were reportedly still being used up until the mid-20th Century in some areas. The current lot is a modern recreation by the People's Republic, made to sell as a novelty item and for use as tea.

A rather RARE and interesting issue sure to pique the interest of even the most advance of Sycee collectors.

Interesting to note that the reverse exhibits the raised character "Shou", this could only occur if the surface in which the silversmith or merchant who applied this stamp used a mould of some sort to place the ingot on so when the obverse stamp was applied metal would be pushed down into the surface in which is sat.

清代長元絲圓錁子1.25兩。 重44克。正面為"生易銀",反面凸起"净"。光澤佳,底板有輕微的包漿。戳記有力,文字清晰。頗為罕見而又饒有趣味的一版,定能吸引銀錠藏家競投。值得一提的是反面的凸起"净"字。應是銀匠或商人在鑄打戳記時,使用了某種模具盛載銀錠。打戳記之時,正面施力將金屬往下壓,方會出現凸起字樣。

(t) CHINA. Republic of China. Yunnan Yuanbao. Provincial Large Ingots. Silver 50 Tael Local Tax Ingot, ND (ca. 1912-49). Graded "XF" by Zhong Qian Ping Ji Grading Company. cf. BMC-Class IX. Weight: 1770.8 gms. "Min Guo Yuan Bao" (Made in the Republic) stamped twice near the waist. "Shi Zu Wen Yin" (guarantee or fineness) stamped three times, one stamped across another left side and one to the right. "Ji Xiang Ma Ji" (Jixiangma bank) stamped across one of the fineness stamps on the right side. Six additional geometrical shaped stamps on the face, one "large" and five "small". The fineness and bank stamps are deeply impressed giving good definition of the characters making identification easy. The Republican stamps are slightly uneven with portions of the characters not struck up. A very interesting and attractive issue presumably made during the early years of the Republic encountered far less often then earlier 50 Taels and should be considered VERY RARE, sure to catch the attention of even the most advanced collector of Chinese ingots.

雲南元寶貿易銀伍拾兩。 重: 1770.8 克。"民國元寶" (民國時所鑄) 戳記兩次鑄打近腰的位置,鑄打稍有不均,銘文難辨。"十足紋銀" (成色) 鑄打兩次左側,一次右側。"吉祥馬記" (吉祥馬銀號) 鑄打時與右側的"十足紋銀"有重疊。另外有數個幾何形小戳於錠面,一大五小。成色及銀號戳記深峻,字口峭立。民國早年的鑄打,鮮少出現在拍場的五十兩,存世稀罕,令人愛不釋手的一枚,值得躋身高端銀錠集藏。

(t) CHINA. Silver Long-Whisker Dragon Dollar Pattern, Year 3 (1911). Tientsin Mint. PCGS SPECIMEN-65 Gold Shield. L&M-29; K-223b; KM-Pn306; H. Chang-CH28 (plate coin); Wenchao-108; K. Shih-B7-1; Shanghai Museum/Mr. Shi Jiagan's Collection-67; Shanghai Museum-595; WS-Unlisted; Chang Foundation-Unlisted; Han Collection-Unlisted; Hsu-Unlisted; China Numismatic Museum-Unlisted. By L. Giorgi. The single finest certified of the type at either NGC or PCGS, this large characters variety, known as the "ordinary reverse," is slightly different from other 1911 pattern dollars. An EXTREMELY RARE pattern with the adopted reverse design—the same as used on the on the standard "dragon in the clouds" imperial dollar. A fantastic rarity missing from most of the significant collections of Chinese coins—private or institutions—such as the famous Irving Goodman, Dr. Norman Jacobs, and Chang Foundation collections. The piece exhibits a needle sharp strike with crisp, well defined devices, blocked off characters, and smooth surfaces. A light, delicate patina graces the peripheries of the obverse while the reverse displays a lightly mottled tone. A magnificent representative of the type that is certain to pique the interest of the connoisseur of Chinese coins, world crowns, or pattern issues.

★★★The head of the Central Mint at Tientsin, Mr. Luigi Giorgi, served as head designer and chief-engraver from 1910-20. His many works are of outstanding quality, done in fine style, and are highly artistic. Examples of his work include all of the 1911 pattern dollars (L&M-28 through 35A), the 1910 silver dollars and subsidiary denominations (L&M-24 through 27), the 1914 Yuan Shih-kai patterns (L&M-67 through 73), as well as various other silver and copper issues. Several of his pattern designs were adopted and placed into full production with two of the most widely recognized motifs in Chinese numismatics being the 1911 "dragon in the clouds" imperial dollar and the 1914 Yuan Shih-kai dollar. Mr. Giorgi had the privilege of designing and creating the last Chinese Imperial issue which saw use well into the Republic.★★★

★★★Luigi Giorgi先生於1910-20年於天津造幣廠擔任首席設計及雕刻師。他的設計成品卓越,多以細膩、藝術感豐富馳名。他的傑作包括1911年大清壹圓樣幣(L&M-28 至35A)、民國三年袁世凱樣幣 (L&M-67 至73),及其他銀及銅元。他的部分設計被採用及大量發行,首選1911年"龍在雲中"大清壹圓及民國三年袁世凱壹圓。Giorgi先生有幸能被賞識為晚清設計錢幣發行,並引用至民國時期,影響深遠。★★★

Like many of the 1911 pattern issues, this proposed design was never adopted for mass production due to the outbreak of the Xinhai revolution ending two thousand years of imperial rule in China. Instantly recognizable as a very special coin, the care with which it was prepared and the resulting product are outstanding. The finely engraved and intricate design features of the dragon have such a sharp and deep strike, that the beast has taken on a three dimensional appearance. With an incuse swirl fireball, the dragon looks as if he is poised to leap right off the surface of the coin! A very pleasing to the eye example with much visual appeal and desirability displaying rich old mottled cabinet patina with plenty of luster flash, clearly an example which sat for a prolonged period of time undisturbed.

宣統三年大清銀幣伍角立龍銀樣幣。天津造幣廠。(珍稀度☆☆☆)。和許多宣統三年試鑄樣幣一樣,由於辛亥革命的爆發,此款設計從未發行流通。此幣設計圖案極富特色,製作工藝十分精湛。鑄模雕刻細緻入微,龍身細節絲微盡顯,三維效果,與火珠交相輝映,仿若下一秒便會騰空而起!濃郁斑駁老包漿,原光充沛,顯然是久置於一處未經擾動,方能有如此保存效果,賞心悅目至極。

Quite pleasantly toned, this EXCEPTIONALLY RARE pattern issue presents stunning beauty through its alluring gunmetal gray surfaces along with a deeper cobalt nature and charming underlying luster. Tied with just three others at this level in the PCGS census, and exceeded by only one example—an MS-64 that was our last offering of this type: our August Hong Kong auction (lot 52090).

Vastly different from the adopted type, as this piece features a three-quarters facing portrait of Yuan Shih-kai, rather than the left facing portrait found on the circulation issues. Seldom Seen Yuan Shih-kai Dragon Dollar Variety

罕見袁世凱沖天冠飛龍壹圓銀幣

41384

CHINA. Dollar, ND (1916). NGC AU-58. L&M-945, K-664a, KM-Pn52, WS-0096, Wenchao-1101. Variety with tall plume on hat that nearly touches the rim. A VERY RARE variety of this classic type, which lacks the refinement of the standard issue, showing instances of heavy die lines in the fields as well as some micro-pimples, which are mostly confined to the recesses of the designs. Closer inspection confirms that the overall sharpness is less than that of L&M-942, while the reverse shows clear die doubling in many of the characters as well as components of the dragon design. This example, which just misses the Mint State tier, maintains exceptional eye appeal for the grade, with shallow reflective qualities in the fields and pale gold and purple tone over the surfaces; there are scarcely few marks or signs of handling to mention on either side. All considered, a prime opportunity for the collector seeking completeness to acquire a very presentable example of this seldom-seen issue.

袁世凱像中華帝國洪憲紀元銀幣。飛龍。沖天冠。 袁世凱高帽款,冠頂近乎與上緣相接。十分珍罕的一枚,與標準發行版相比,製作稍欠精美,底板可見明顯鑄模條狀痕,另可見小凸點,主要位於圖案低位。仔細檢閱,可見整體清晰程度弱於L&M-942,背面多數文字和龍圖複打痕跡明顯。本拍品雖失MS評分,但仍賞心悅目,底板亮潔,淺金色及紫色包漿,雙面均無過多傷痕。整體優異悅目的一枚,定令藏家集藏熠熠生輝。

Obverse: President Hsu Shih Chang in formal attire; Reverse: Pavilion at Peking Union Medical College Hospital with legend at the bottom. A stunning example of this RARE off-metal presentation striking in gold, endowed with pinpoint detail in the artful designs and glowing brilliance in the reflective fields. Upon concentrated inspection, a touch of wispy handling and a few inconspicuous marks are seen, although no instance is out of line with the grade. Numerous lint marks (most notably in the field to the left of Hsu Shih-chang's bust) are observed as well, which signals die polishing directly prior to strike. Altogether, a lovely example of this important numismatic item that is sure to generate significant excitement, as it is the first example in gold that we have sold in over six years!

CHINA. Dollar, Year 10 (1921). NGC MS-65. L&M-864; K-676; Hsu-19; WS-0101. Reeded Edge variety. President Hsu Shih Chang and Pavilion with legend at the bottom of the reverse. Shimmering and lustrous, this Gem specimen presents a subtle frosting to the devices and a golden hue as one approaches the peripheries. VERY RARE this alluring, just one has been graded finer in the NGC census.

An incredibly popular and desirable type believed to have been a pattern issue, it now appears that these were, in fact, more medallic in nature, and meant to be given out upon the opening of the Peking Union Medical College (PUMC). Initially designed with a blank field below the pavilion for recipients' names to be engraved, the design was altered to contain the three struck characters instead, as the engraving proved difficult on the initial batch.

Highly Coveted Sun Yat-sen "Mausoleum" Pattern Dollar

備受追捧孫中山像陵墓壹圓銀樣幣

CHINA. Silver "Mausoleum" Dollar Pattern, Year 16 (1927). PCGS MS-63 Gold Shield. L&M-85; K-609; Wenchao-pg. 555#898 (rarity three stars); Sun-III-4-01; WS-0130. Mintage: 480. Tied with 4 other specimens at this grade level on the PCGS population report, only surpassed by 4 pieces (PCGS SP-63+ (1) and SP-64 (3), previously designated "MS"). VERY RARE and heavily sought after. A sharply struck and very attractive example of this always in demand and popular pattern Dollar exhibiting flashy surfaces with much brilliance combined with frosty devices. The obverse displays light subtle iridescent tone that catches the eye when tilted in the light while the reverse exhibits a lovely iridescent sheen with dusky hues all adding to its pleasing appearance. A highly desirable, low mintage and tough to locate pattern sure to add depth to the next collection it enters destined for an advanced collection of Chinese rarities.

Designed by Richard Placht, Austrian medalist and engraver for the Vienna mint. Although attractive and elegant in its design, the pattern was destined to be met with disapproval. While stylistically correct, the "Sun Yat-sen Mausoleum" is lacking several design elements. (Construction of the site was still under way as this pattern was being designed). Since the engraver never actually saw the site and was only supplied with drawings, elements were omitted including the mausoleum steps leading to its face. It is also noted that the engraving of Dr. Sun Yat-sen was met with disapproval from authorities in China, as it bore only partial resemblance to his actual likeness.

維也納造幣廠設計,由總雕刻師Richard Placht製作。儘管設計極為精緻,但沒有被採納。中山陵的形式正確,但細節不全。由於雕刻時在建築尚未落成,由於雕刻時在建築尚未落成,雕刻師從未看到過真實建築,僅憑設計稿進行,所以缺少一些如正面的台階等細節。此外,孫中山肖像的相似度不足,也是未採用的原因。

Very Rare 'Giorgi' Signed Copper Cent Pattern

極罕 "L. Giorgi"簽字版壹分銅樣幣

(t) CHINA. Copper Cent Pattern, Year 5 (1916). Tientsin Mint. PCGS SPECIMEN-64 Red Brown Gold Shield. CL-MG.54; KM-Pn-41; CCC-680; Duan-3224. Signed by L. Giorgi. The finest of just seven graded by PCGS, this EXTREMELY RARE 1916 pattern is signed by the illustrious Luigi Giorgi. Long considered a great rarity, this type is missing from most major collections, including that of Jacobs and Kann. It was produced by Giorgi at the Tientsin Mint, with his name appearing near the reverse periphery just to the right of 6. The current offering of this immensely popular pattern exhibits a razor sharp strike, gorgeous original surfaces, and an abundance of mint red in virtually every portion of the field. It is certainly worth a strong bid, as near Gem quality specimens are few and far between. Compare to a specimen previously offered in our 2014 August Hong Kong auction—merely an NGC MS-63 Brown—which realized a total of \$83,650 (lot 41106).

CHINA. Hunan-Soviet. Countermarked 20 Cash, ND (1931). NGC Genuine. An intriguing issue, characterized by a hammer and sickle design inside a 5-sided star countermark. As always appears to be the case, the mark was applied to a well-circulated 20 Cash coin, which happens to be an undated (1903) Empire-era 'Hu Poo' 20 Cash in this case. While few of these issues have appeared on the market, this piece is as nice as any, with the stamp displaying incredibly bold detail. A RARE piece allegedly found among bags of Chinese coppers that were being melted by the Japanese during WWII; in total, it is believed that around 100 were found out of 30,000 coins.

Obverse: Facing bust of Feng Kuo-cheng in military outfit; Reverse: Crossed flags, characters and denomination at legend. Some hairlines are noted on the reverse, but do not detract from this VERY RARE and highly desirable fantasy issue. Mimicking the INCREDIBLY RARE Chang Tso Lin type, this charming imitative issue does exhibit some scattered scratches in the obverse field accounting for the details designation, yet nevertheless stands as a great space filler for what would otherwise be a virtually unobtainable coin. Lightly toned overall with just a hint of light handling upon the high points.

An EXTREMELY RARE fantasy issue produced with a almost identical design to the original proposed patterns, but with an slightly different surface texture and minor nuance differences in the devices. It is the opinion of this cataloger that these were probably produced for collectors as a "hole filler" since the originals of this issue seldom appear on the market and are virtually uncollectible as a type. An interesting piece displaying a lovely design with crisp devices sure to add depth to any advanced collection of Fantasy issues.

民國十五年山東省貳拾圓金樣幣。天津造幣廠製。重8.84克。 仿製版。極罕版別。由直魯聯軍總司令張宗昌下令生 產,鑄於1926年。張宗昌行事荒唐,外號不少,如"狗肉將 軍"",此綽號來自其熱愛推牌九。據稱有各國籍之姨太太三 十五人,由於記不得名字每人給她們一個編號。此枚鑄於天津 造幣厰,數量極少,完全是樣幣形態,從未發行。最可能的原 因是缺乏原料。有案例在某次要晉升部下為將軍時因為金子不 夠,他改以香煙盒的箔紙做成星星的形狀來代替。

The China Journal-Vol. XXVIII No. 6 June 1938 # 62 (same dies as gold issue). A highly interesting piece and the first we can recall seeing struck in an off-metal for either denomination from this series and as such should be considered VERY RARE. A lovely well preserved survivor with a bold strike and lustrous surfaces the display very attractive mottled gray patina throughout. A neat piece sure to garner much attention from specialist sure to be a welcome addition to the next collection it enters.

It is interesting to note that in June 1938 issue of the China Journal quite a few fantasy issues were published in an article by the title of "Coins That Never Were" by G. Buncan Raeburn. A fair number of the pieces plated and listed in this article show up on the market with regular frequency while only a few such as the current type seldom appear. The style of die engraving is also similar to that of the legitimate issues of this type, but do not quite match the design and manufacture.

VICEKONIGS LI HUNG TSCHANG B. FURSTEN, bust of Chang left, wearing cap. An incredibly majestic specimen, this near-Gem presents a rather deep cabinet tone with golden-cobalt highlights shimmering throughout. Some underlying luster merely augments its appeal. Compare to a similar example, raw and graded Ch. Unc, which realized a hammer of \$15,000 in our August 2015 Hong Kong auction (lot #51245). VERY RARE and desirable, especially so pleasing.

CHINA. Silver Tientsin Tutung Yamen Medal, 1902. PCGS Genuine—Repaired, AU Details Gold Shield. L&M-994; cf.Li-pg 90. By J. Chevt and struck by TENSHODO. A RARE silver medal struck by the seven member provisional military government which controlled Tientsin ca. 1900-02. The obverse records this provisional government with a legend in French around enamel flags of Germany, United States, France, United Kingdom, Italy, Japan, and Russia with the dates of its existence below; Reverse: Two line inscription within wreath of oak and laurel. While it was struck in both silver and gold, it is believed that the gold versions were only presented to the foreign dignitaries of the provisional government, meaning this silver example would have been presented to either a local or lower ranking official. Light tasteful smoothing in the field at 9 on the obverse and light scratches are noted in one area of the reverse fields. Despite its shortcomings a handsome and highly sought after issue sure to be a welcome addition to the next collection it enters.

Obverse: Bust of Mei facing slightly right, head turned slightly left; niàn jì shì bó méi (to commemorate Mei's doctoral) above; Reverse: Flowering branch and reeds encompassing "THE / COMMEMORATE / OF THE DOCTOR / OF MEI LAN / FANG" in five lines. The pleasantly toned and highly interesting medal commemorates not a medical doctor, but in fact one of the most well known and well accomplished Peking opera artists in modern Chinese theater. Known as the "Queen of the Peking Opera," he exclusively played female roles and had a robust 50-year career that included tours abroad, essentially acting as a cultural ambassador. A six month stint in the United States in 1929-30 saw him awarded two honorary doctoral degrees—one from USC, the other from Pomona College. This EXTREMELY RARE medal likely corresponds to one of these two conferrals, honoring the great artist for his achievements in the west.

Impressive 20 Cents Pattern from Chekiang

極為珍稀光緒二十三年浙江一錢四分四釐樣幣

42013

(t) CHINA. Chekiang. Silver 1 Mace 4.4 Candareens (20 Cents) Pattern, Year 23 (1897). Anking Mint. PCGS SPECIMEN-65 Gold Shield. L&M-273; cf. K-117; KM-Y-53.5. This immensely impressive and alluring Gem pattern issue presents flawless gunmetal gray surfaces accentuated by some golden-russet toning around the devices. The only example of the type in the PCGS census, this majestic RARITY will undoubtedly be at or near the top of any connoisseur's list, as the chances are exceedingly unlikely of another specimen of this magnitude coming available anytime soon.

Coinage in the Chekiang province began in 1896, with the services being tasked to the mint in Hupeh. Meanwhile, the Anking mint in Anhwei was similarly tasked to produce a series of patterns across four denominations the following year, of which this specimen is a robust survivor.

Incredible Gem Pattern 5 Cents

(t) CHINA. Chekiang. Silver 3.6 Candareens (5 Cents) Pattern, ND (1902). Heaton Mint. PCGS SPECIMEN-66 Gold Shield. L&M-281; K-123l; KM-Pn4. INCREDIBLY RARE and majestic, this superlative Gem minor offers a rather intense array of iridescent toning, especially upon the characters side. A melange of cobalt, burgundy, and goldenrod creates spectacular eye appeal, with the hues becoming even darker near the peripheries. Surpassed in the PCGS census by just two specimens, this piece presents a great opportunity for the connoisseur of special Chinese issues.

It is interesting to note that the all of the necessary minting equipment to produce the coinage of this pattern series was supplied by the Heaton Mint of Birmingham, but was not utilized to place silver into circulation. There is however evidence that the minting equipment was used to some degree as 10 Cash identical to the design procured from Birmingham. Another interesting aspect is that since these issues were initially designed by foreigners the spelling of the provincial name as "CHE-KIANG" instead of "CHEHKIANG" which was the modified English inscription and later the standard spelling.

浙江省造光緒元寶三分六釐樣幣。喜敦造幣廠。 極罕迷人的珍品。虹彩包漿,尤以字面色澤艷麗。鈷藍、深紅、金色相互 交織,五光十色,延展至環形色澤更濃。PCGS中僅兩枚更高分,常列待收藏項目的前茅。

所有打鑄此版銀幣所需的設備均由伯明翰的喜敦造幣厰提供。雖然設備在打鑄流通銀幣時沒有用上,但曾用於生產 設計相同的十文。此枚還有另一有趣的故事:最初由外國人設計,省份拼寫為"CHE-KIANG"。及後英文正式拼寫改 為"CHEHKIANG"。

Variety with seven spines on tail and seven flames on fiery pearl. This VERY RARE and majestic specimen exudes the typical sharp strike and flawless surfaces that one would demand for such an elite grade. Unsurprisingly, this Gem stands as the finest graded of the type across both services—the next finest merely being an NGC MS-65. An Originally Toned Example of this Very Rare Chihli Tael

(t) CHINA. Chihli (Pei Yang). Tael, Year 33 (1907). Tientsin Mint. PCGS Genuine—Tooled, Unc Details Gold Shield. L&M-438; K-938a; KM-Y-74.1; Chang Foundation-p. 116 #52; Wenchao-p. 415 #634; cf. WS-0638. Despite its details designation and exhibiting some light, subtle tooling, this INCREDIBLY RARE type is ceaselessly sought after and always hotly contested. Some pleasing goldenrusset toning throughout merely augments its robust appeal.

During the reign of Emperor Kuang-hsu, attempts were made to introduce a standard Tael coinage. Intended to circulate alongside the 7 Mace 2 Candareen units, the coinage was met with mixed approval. As a result, this coinage never gained wide acceptance and was aborted after the death of the emperor. Shortly thereafter, this project was replaced with attempts at producing a unified coinage. Allegedly, about 7,000 Pei Yang Taels were initially struck, however most never entered circulation. A majority of the mintage was recalled and melted, accounting for its rarity. Today, it is considered one of the classic rarities of Chinese numismatics.

光緒年間,清政府曾致力引入以"兩"計重的標準單位。此類壹兩銀幣原計劃與庫平七錢二分系列錢幣混合流通。新單位銀幣在推行批准上遭遇了層層阻礙,並未得到廣泛接納。光緒帝駕崩不久,該項幣制改革計劃便宣告流產,政府轉而嘗試統一推行全新幣制。據估計,北洋壹兩鑄造總數僅約7,000枚,大部分未進入市場流通,且多被召回重熔。時至今日,北洋壹兩以其經典的設計和稀有的屬性而備受推崇。

Extremely Rare "TENG-TIEN" Pattern Dollar in Brass

極罕奉天光緒七錢二分黃銅樣幣

42088

(t) CHINA. Fengtien. 7 Mace 2 Candareens (Dollar) Pattern, ND (1897). PCGS SPECIMEN-62+ Gold Shield. L&M-467 var.; K-unlisted; KM-unlisted; cf. WS-0579; Wenchao-unlisted; Shanghai Museum-Mr. Shi Jiagan's collection-unlisted; cf. Chang Foundation-54(Aluminum); cf. Sun-I-6-01. An EXTREMELY RARE pattern struck in brass, with the province spelled "TENG-TIEN" rather than "FENG-TIEN". It is skillfully engraved with stunning, razor sharp design detail and a bold strike that has left not the slightest weakness on either side. Soft luster abounds on this carefully stored coin, and it is free of almost any discernible mark or scuff. The only notable defects are some small points of rusty discoloration at the base of the dragon side. Overall, the finest of the two examples that we have seen in this brass composition, and a truly magnificent and important pattern that does not come up for auction often. An instant showpiece for the next collector it enters!

The recent discovery of production material shed new light on the creation of this coinage. The findings included patterns, dies, hubs and a series of punches from the archives of the Otto Beh company, Esslingen, Germany. Before this, the origin of the dies used to produce coinage for the provinces of Anhwei, Chekiang, Fengtien, Heilungkiang and Sungarei was only speculated upon. Otto Beh was a specialist in the production of seals and dies. From neighboring Goppingen, Louis Schuler received an order for coining presses in 1895 and commissioned Otto Beh to manufacture the dies. In 1897 and 1898, Beh supplied Schuler with over 200 dies for Chinese coins. At the time, this was the largest order that the company had ever received. Schuler, which started as a Locksmith's shop in 1839, had grown to become one of the world's leaders in metal forming and in fact supplied the aforementioned mints with coining presses.

光緒二十三年奉天省造壹圓黃銅樣幣。 極其稀罕的黃銅試鑄樣幣,省名拼寫為"TENG-TIEN"而非"FENG-TIEN"。鑄模雕刻精美,設計細節纖毫畢現,鑄打精深,雙面無一處弱打。精心保存之下,此幣至今仍閃爍柔和光澤,無任何可察覺的劃痕或瑕疵。唯一可稱得上遺憾的地方,是龍面下部有幾枚小鏽點狀褪色。我司共經手過兩枚同款,此枚品相較佳。絕世罕品,拍場稀見,定會為集藏增光添彩。

隨著對當時的生產工具有新發現,亦為此幣帶來新的亮點。這些發現包括樣幣、模具、二元模及一系列來自德國Otto Beh公司的存檔製模冲頭。在此之前,原始模具用於安徽(此枚)、浙江、奉天、黑龍江和新疆的幣製生產僅是猜測。Otto Beh為封蠟及模具的生產專家。到目前為止,已知打樣的有銀幣、銀銅幣、黃銅幣和鋁幣,但Beh生產的樣幣不止這些。其模具數量和種類遠遠超過已知的樣幣。1895年,路易斯-舒勒(Louis Schuler)從附近格平根(Goppingen)收到了壓鑄機的訂單,並委託奧托-拜赫(Otto Beh)製造模具。在1897年和1898年,Beh為Schuler提供了200多個用於中國硬幣的模具,這是當時該公司接到的最大的訂單。1839年,舒勒的商店開業,後來發展成為世界上領先的金屬成型企業之一,並為上述所提及的造幣廠提供了鑄幣設備。

(t) CHINA. Hunan. Dollar, Year 11 (1922). PCGS MS-65+ Gold Shield. L&M-867; K-763; KM-Y-404; WS-0930. "Hunan Provincial Constitution". Struck to commemorate the Promulgation of the Constitution. Superbly preserved, possessing a full strike with satin luster and faint peripheral toning. VERY RARE and seldom encountered in this Gem condition.

In a time of presidents and warlords the people wanted to unite, but also to have autonomy in their own provinces. Zhao Hengxi, the governor of Hunan wanted to protect the province from civil war so he worked diligently to establish the Provincial Constitution and was finally successful on January 1, 1922. The constitution which contains 141 articles grouped under 13 chapters, states the difference between the central and local governments. Some of the weaker warlords were for these constitutions as it was used somewhat like a talisman in that no other provinces' armies could enter the province without permission. Several southern provinces followed suit and successfully drafted and instituted their own constitutions.

(t) CHINA. Hunan. Brass 10 Cash Pattern, ND (1902). PCGS SPECIMEN-64 Red Brown Gold Shield. CL-HUN.92; KM-Pn5; CCC-192 (the plate coin). A gorgeous, lustrous brass Pattern with needle-sharp design details and warm, burnt orange mint luster in the fields. VERY RARE, we are aware of only one other example of this type; that coin, the CL plate coin, hammered for RMB 805,000 (approximately \$120,000) when it last sold in 2011. This piece, seemingly at least its equal, could certainly challenge that piece, as the opportunity might not present itself again for this generation.

An enchanting example of this RARE pattern, sharply defined throughout, with shades of orange, green and blue tone appearing in the moderately reflective fields. While this pattern appears from time to time, more often than not, it's accompanied by some form of damage. Not only is this piece undamaged and wholly original, but it is currently the finest graded by NGC, with a single comparable 63 also residing in the PCGS census. Immensely Desirable Mint State Tael

備受追捧原廠品相湖北雙龍壹兩

42138

(t) CHINA. Hupeh. Tael, Year 30 (1904). PCGS MS-61 Gold Shield. L&M-180; K-933; KM-Y-128.2; WS-0878. Small Characters variety. An attractive and SCARCE dollar, with decent luster and offering an even, consistent light gray tone on both sides. A few minor marks as would be expected for the grade, but nothing of real significance to distract from the overall pleasing look of the coin. One notable dark streak just south of the obverse center is actually a discoloration in the original planchet and not a mark that would hurt the grade. This is a wholesome and pleasant example of a wildly popular type that is sure to generate great bidder interest.

Originally 648,000 Hupeh Taels were minted, this includes both large and small character types; however, it is unknown exactly how many of each were struck. The Hupeh Tael was introduced as part of a projected coinage reform based on the traditional Chinese weight standard, rather than the Dollar system. In the initial proposal to produce these coins, it was also suggested to produce smaller denominations in the values of 1, 2, and 5 Mace. However, no such pieces have surfaced (even in pattern form) and it is unlikely they were ever produced. The general populace found it complicated to convert two distinctly different coinage systems, especially when making change. A Hupeh Tael housed in the British museum supports this by showing evidence of cutting to make change. The British museum specimen is essentially mint state with a large pie shape section cut from the coin. The cut is in a similar manner to the "broken dollars" picture on pg. 121 figure 4.10 of Joe Cribb's reference Money in the Bank. This short lived series circulated for only a brief period and was soon after replaced by the unified Tai Ching Ti Kuo silver coinage. Although the Hupeh Tael coinage has a fairly large mintage, most were likely melted down to be made into later coinage. It is interesting to note that the Hupeh Taels were struck in 0.877 fine silver, as opposed to the 0.960 fine silver set forth by the currency regulations of 1905.

光緒三十年湖北省造大清銀幣庫平壹兩。 小字版。極罕壹兩,銀光柔美,兩面均呈淺灰色包漿。幾處輕淺刮痕,如評級相符,但絕對是瑕不掩瑜,品相精美的一枚。正面中央下方雖有一道淺黑痕,應是來自打鑄時原模有褐色所致,對分數無影響。備受追捧的版別,相信定會引起激烈競投。

湖北雙龍壹兩共製有648,000枚,包括大字版和小字版,每一版具體製作量不詳。當時的幣制改革擬棄用"圓"為單位,改用中國傳統重量單位製錢,湖北壹兩便應運而生。原本在製造雙龍壹兩的同時,鑄幣局還要鑄伍錢、貳錢、壹錢等輔幣,但是這些輔幣均未有流通幣流傳於世,甚至連樣幣都沒有,因此很有可能未曾鑄出。當時的百姓普遍認為兩種幣制在轉換時會引起困擾,在找錢時尤其如此。這一換算混亂情況的佐證,是大英博物館館藏的一枚湖北壹兩:它新如出廠,唯獨好似切餅般被切去了一角,與Joe Cribb著述Money in the Bank第121頁圖4.10所示的broken dollars有異曲同工之妙。湖北雙龍壹兩流通時間極短,之後被大清銀幣取代,儘管鑄打數量較多,但是之後多被回爐重鑄。值得注意的是,湖北壹兩的銀成色為0.877,與1905年(光緒三十一年)制定的壹兩銀幣章程中所規定的0.960不符。

CHINA. Hupeh. Tael, Year 30 (1904). PCGS AU-55 Gold Shield. L&M-180; K-933; KM-Y-128.2; WS-0878. Small Characters variety. An attractive SCARCE specimen with immaculate, original surfaces, needle sharp strike details, and a slight strike doubling on the base of the characters side. The toning is a rich dark gray, speckled with lighter silver tint though some of the protected areas. Overall a coin with significant eye appeal that belongs in a top-notch collection.

光緒三十年湖北省造大清銀幣庫平壹兩。 小字版。珍罕版別,原始幣面,細節纖毫畢現。字面底部略有複打。濃郁的深灰色包漿,底板略現銀色。整體而言品相上乘,位屬一流集藏。包括大小字兩種的湖北一兩製作額僅648,000枚,兩版各自具體數量不明。湖北一兩是按照中國傳統計重單位的銀兩制度進行,而非以圓為單位。原來亦有計畫推出五錢、二錢及一錢等面值。然而這些錢幣並未出現過,由連樣幣形式的也未曾得見,或是從未投入製作。在實際使用時,民眾發現兩種制度間的兌換十分複雜,找零錢的時候尤甚。大英博物館藏有一枚湖北一兩,是用來找零的證據。館藏的該枚為MS品相,從錢幣中裁出的大餅形。裁切形狀類似Joe Cribb著《匯豐銀行錢幣集藏》第141頁、圖4.10。湖北一兩流通的時間很短,隨即退出流通。雖然湖北一兩的製額頗多,大多數被回爐熔化改製成其他錢幣。有趣的是湖北一兩銀幣的成色是0.877而非1905年(光緒三十一年)制定一兩銀幣章程時的含銀0.960。

CHINA. Hupeh. Tael, Year 30 (1904). PCGS AU-58 Gold Shield. L&M-181; K-933; KM-Y-128.1; WS-0879. Large Characters type. Exhibiting just a hint of light handling upon the high points, this pleasingly struck example features mostly gunmetal gray surfaces with some golden hints speckled throughout, while a slightly darker nature near the peripheries adds further character. Quite difficult to locate in more elevated states of preservation such as is on display with this great specimen.

Originally 648,000 Hupeh Taels were minted, including both large and small character types. It is unknown exactly how many of each were struck. However, it is clear that the large character type is by far the rarer of the two. In the initial proposal to produce these coins, it was also suggested to produce smaller denominations in the values of 5, 2 and 1 Mace. However, no such pieces have surfaced (even in pattern form) and it is unlikely they were ever produced. This popular issue represents the changeover from the older style dragon and layout to the more elegant, "new" style which would become standard. A shimmering near Gem presenting steely gray surfaces and intense, radiating luster, this great example—RARE in this elite state of preservation—stands in a rather lofty position, as just two have been graded finer in the NGC census. Far superior to a somewhat similar specimen, a PCGS SP-61, that realized a total of \$36,000 in July 2020.

Interesting Kwangtung Pattern Cash

饒有趣味廣東省一文黃銅樣幣

42297

(t) CHINA. Kwangtung. Brass Cash Pattern, ND (ca. 1890-1908). PCGS SPECIMEN-62 Gold Shield. CCC-779; Duan-2235. An interesting and perplexing issue certain to grab the attention of the specialist looking to advance their collection. The obverse features the standard design with the formula for the Emperor's name while the reverse is what really sets it apart from other issues. The Manchu script on the reverse is somewhat barbarous done by an inexperienced and unfamiliar hand who succeeded in engraving a nonsensical version of "Guwang". Two dots are also noticed on the reverse, a feature not normally associated with square hole cash. The surfaces are quite lovely displaying lovely golden brown tone amongst the devices while the rest of the fields exhibit a bright and flashy brassy tone. A neat and seldom encountered issue destined for an advanced collection of Chinese numismatics.

An interesting pattern who's exact origin is unknown. Certainly not manufactured in China, but most likely produced in Europe. The fact that this elusive issue is not listed in many of the reference material is suggestive of limited production. Though stylistically a much different product than the Paris mint patterns (CCC-777) where the characters are larger and more bubbly, this issue also differs from the patterns produced by the Heaton mint in Birmingham (first Kwangtung dragon issues). Due to the lack of contemporary documentation there is no solid evidence as to the place of manufacture.

廣東省造光緒通寶一文黃銅樣幣。 有趣而充滿神秘感的一版, 能增進集藏,定能引起專業藏家關注。正面為常規設計,鑄有 光緒帝的稱號,反面則與其他版別不同。反面的滿文雕刻較 粗糙,手工青澀,"光"字走形。兩點於背面在方孔銅錢中很少 見。幣面漂亮,圖文間有金棕色包漿,底板為亮麗的黃銅色 澤。難得一遇的版別,而且品相出衆。收藏中國高端錢幣的藏 家萬勿錯過。

出處不明的一枚樣幣,頗為趣緻。肯定不是鑄於中國,更可能 是出自歐洲。之所以在諸多參考書中都不得見,或是因其製額 極少。此枚風格較巴黎造幣厰(CCC-777)的樣幣不同,巴黎造樣 幣字體較之大。此版與伯明翰喜敦造幣厰(製出首版廣東省龍幣) 出品的錢幣亦有差異。由於缺乏文獻,因此缺乏其出處的實質 證據。

Very Rare Chin Cheng Chee of Shanghai Tael Issue Tied for Finest Graded at PCGS

存世稀罕上海銀餅 PCGS中並列評鑑最高分

42312

CHINA. Shanghai. Chin Cheng Chee Silver Tael, Year 6 (1856). PCGS AU-55 Gold Shield. L&M-590; K-903; WS-1123. Obverse: "Cake (of) standard silver (from the) business firm (of) Chin Cheng Chee (in the) Shanghai district (in the) 6th year (of Emperor) Hsien Feng [1856];" Reverse: "Made (by) Feng Nien, silversmith; Supervised (by) Chow Yuen Yu. Exact weight one Tsaoping Tael." A VERY RARE and intriguing issue, almost never encountered so pleasing and problem free.

Hyper-inflation caused by the Tai Ping Rebellion led to the hoarding of silver. At this time, foreign coins namely Spanish eight Reales, circulated in Shanghai at a considerable premium. In 1856, the Shanghai authorities authorized silversmiths to issue coinage in an attempt to replace the Spanish 8 Reales. The firms Wong Yung Sheng, Ching Cheng Chee and Yu Shen Sheng were granted permission to issue coinage in the denominations of one Tael and 5 Mace. This was a short lived coinage as the monthly output was only about 3,000 pieces and was not large enough to meet the demand. This combined with the large number of forgeries entering circulation doomed the project to a short period of only about six months. Extremely significant as the Shanghai series represents the first Tael coinage produced in China.

咸豐六年足紋銀餅。正面:"咸豐六年、上海縣號、商經正記、足紋銀餅",背面:"朱源裕監、傾曹平實、重壹兩銀、匠豐年造"。罕見版別,從未經手如此誘人無瑕的一枚。 咸豐年間因太平天國事件物價飛揚造成囤積白銀。此時上海地區通行之西班牙本洋銀元兌價高漲。1856年上海道委託王永盛、經正記及郁森盛三家商號鑄造壹兩與五錢銀餅以抵制本洋。但因每月只能生產三千枚,遠不足敷用。加上大量仿造偽品橫行,使這項舉動在六個月左右就結束。上海銀餅系列是第一種在中國製造的銀兩幣,具有重大的歷史意義。

Extremely Rare Taiwanese Military Ration Dollar

42469

(t) CHINA. Taiwan. Military Ration Dollar, ND (1836). NGC EF Details—Chopmarked. L&M-310; K-7; cf. WS-0994. Obverse: Two Chinese characters at top, signature below flanked by 4-petal rosettes on either side, also by two small official chopmarks "chang" and "xie"; Reverse: Four Chinese characters, the bottom two flanked by 4-petal rosettes; other chopmarks in the field. An EXTREMELY RARE and unusual issue, this piece features a solid strike and little wear, its only distractions being the typically encountered chops.

For the majority of the nineteenth century, Taiwan remained under the control of the Qing court as part of Fukien province. During this time Taiwan saw great civil unrest, with regular occurring rebellions and riots. This period evoked the common saying "every three years an uprising; every five years a rebellion". These military ration dollars were struck during one such rebellion in the sixteenth year of Tao Kuang (1836). Five years after it began the rebellion was quelled in the 21st year of Tao Kuang (1840) at a total cost of nearly 100,000 Taels.

LAOS. Compagnie des messageries maritimes Bronze Medal, 1954. Paris Mint. GEM UNCIRCULATED. 59mm; 106.62 gms. Ruedas-Marine-90. By R. Tschudin & J. Boullaire. Advertising Laos and the Far East private field of the company. Obverse: Laotian female facing slightly left; tropical plant to left, dragon statue to right; LAOS below; Reverse: COMPAGNIE DES MESSAGERIES MARITIMES, company arms. Edge: [cornucopia] BRONZE. Attractive olive-bronze surfaces, with an underlying luster and incredible relief; includes original box of issue.

The Compagnie des messageries maritimes was founded in 1851 as a French merchant shipping company, ultimately reaching its zenith between the end of the Franco-Prussian War and the beginning of World War I-a period of rapid French colonial expansion. Though it had shipping operations throughout the world, the Far East had become the company's private field, with Saigon in Vietnam becoming one of its second home ports. This medal points to the Far East shipping dominion, analogous to other French art medals for passenger shipping lines and their various destination routes.

法國海洋運輸公司是一間商業運輸公司,成立於1851年,在俄法戰爭末期至一戰開始之前發展到巔峰,這段時間也是法國飛速殖民擴張的時期。該公司在全球均開展業務,但它在遠東地區處於壟斷地位,越南的西貢港更是成為了它的第二母港。本章鑄以紀念法國海洋運輸公司對遠東的壟斷權,與法國鑄造的其他紀念各種航線的藝術章性質相同。

TAHITI. Compagnie des Messageries Maritimes Bronze Medal, 1953. Paris Mint. CHOICE UNCIRCULATED. 59mm; 103.01 gms. Ruedas-Marine-105. By R. Tschudin & J. Boullaire. Advertising Tahiti and the Far East private field of the company. Obverse: TAHITIEN, Tahitian woman kneeling left, holding *hei*; all set in tropical, mountainous setting; Reverse: COMPAGNIE DES MESSAGERIES MARITIMES, company arms. *Edge*: [cornucopia] BRONZE. Charming yellow-bronze surfaces, with some lighter highlights and deeper green around the devices; exceptional relief; includes original box of issue.

The Compagnie des messageries maritimes was founded in 1851 as a French merchant shipping company, ultimately reaching its zenith between the end of the Franco-Prussian War and the beginning of World War I-a period of rapid French colonial expansion. Though it had shipping operations throughout the world, the Far East had become the company's private field, with Saigon in Vietnam becoming one of its second home ports. This medal points to the Far East shipping dominion, analogous to other French art medals for passenger shipping lines and their various destination routes.

1953年法國海洋運輸公司紀念銅章。 直徑59毫米,重103.01克,由R. Tschudin和J. Boullaire設計,紀念大溪地及該司遠東屬地。正面:TAHITIEN,一名大溪地婦女跪於左側,熱帶山巒背景;背面:COMPAGNIE DES MESSAGERIES MARITIMES及司徽。邊緣:BRONZE。誘人黃銅色表面,圖文周圍點綴些許亮黃及深綠色,高浮雕令人驚歎。含原盒。

法國海洋運輸公司是一間商業運輸公司,成立於1851年,在俄法戰爭末期至一戰開始之前發展到巔峰,這段時間也是法國飛速殖民擴張的時期。該公司在全球均開展業務,但它在遠東地區處於壟斷地位,越南的西貢港更是成為了它的第二母港。本章鑄以紀念法國海洋運輸公司對遠東的壟斷權,與法國鑄造的其他紀念各種航線的藝術章性質相同。

VANUATU. 50th Anniversary of the Franco-British Condominium Bronze Medal, 1956. Paris Mint. GEM UNCIRCULATED. 68mm; 159.76 gms. Ruedas-Ocean Pacifique-57. By G. Guiraud. The Condominium of the New Hebrides. Obverse: QUEIROZ BOUGAINVILLE COOK, carved native totem; Reverse: CONDOMINIUM FRANCO-BRITANNIQUE DES NOUVELLES HEBRIDES, outline of the archipelago set over beach scene with anchored ship at a distance. Edge: [cornucopia] BRONZE. Warm brown surfaces. A VERY RARE and interesting medal.

An archipelago located in the south Pacific to the east of Australia and the north of New Zealand, Vanuatu first had contact with Europeans in the early 17th century. Over a century and a half would pass until more contact came, first by the French under Louis-Antoine de Bougainville in 1768, then by the British just six years later under James Cook, who gave them their long-standing name-New Hebrides. A century later, with both France and Great Britain claiming the islands, a pact was made whereby the archipelago would be jointly governed as an Anglo-French condominium. Independence from the pair was only gained in 1980, with the name changing from New Hebrides to the more indigenous Vanuatu, meaning "home-stand" in several Austronesian languages. The ninth season of Survivor, airing in the fall of 2004, was filmed there, styled as Survivor: Vanuatu - Islands of Fire.

1956年瓦努阿圖50週年法英共管公寓紀念銅章。巴黎造幣廠。直徑68毫米,重159.76克,G. Guiraud設計製作,新赫布裡底群島共管地。正面文字:QUEIROZ BOUGAINVILLE COOK,雕刻當地圖騰;背面文字:BRITANNIQUE DES NOUVELLES HEBRIDES,勾勒出群島輪廓,沙灘風光,遠處為一艘泊船。邊齒:BRONZE。暖棕色表面,極罕且有趣的一枚紀念章。

瓦努阿圖是一個南太平洋群島國家,位於澳大利亞以東,新西蘭以北。歐洲人於17世紀早期首次涉足瓦努阿圖,直到一個半世紀以後,歐洲人才再次踏上這款神秘土地—1768年,法國人路易斯-安東尼佈幹維爾(Louis-Antoine de Bougainville)來到此地;6年後,英國人詹姆斯-庫克(James Cook)也來到瓦努阿圖,並將它命名為新赫布裡底群島,這個名字一直沿用下來。又過了一個世紀,英法兩國均宣稱該群島歸屬本國,兩國後來簽訂協議,認定此處為英法共管地。直到1980年,群島作為一個國家宣告獨立,名稱也由新赫布裡底群島改為更具本土特色的瓦努阿圖,在許多南島語系的語言裡意為"家園之上"。2004年首播的《倖存者》第九季就在此處拍攝,定名為:倖存者:瓦努阿圖一火之島。

The penultimate ruler of the Northern Song dynasty before its flight and reestablishment in the south, Emperor Huizong reigned for the first quarter of the 12th century, from 1100 until his abdication in favor of his eldest son, Emperor Qinzong, in 1126. During his reign, the Northern Song reached its territorial zenith, bordering the Dai Viet and Dali to the south, the Tibetans and Western Xia to the west, and the Liao to the north. In spite of possessing a vast realm, Emperor Huizong proved to be a rather ineffective ruler, spending much of his time as a patron of the arts rather than overseeing state affairs. Poetry, music, and paintings were all given great attention by the emperor, as well as something for which he was widely known-calligraphy.

Throughout much of Chinese numismatics and until the very end of the end of the empire, coinage took a very formulaic approach, with much of the vast output taking the form of cast-usually in bronze-coins known as "cash." These simplistic pieces generally had square openings at the center allowing for multiples-often in groups of 100-to be strung together for ease of accounting and trade. Four characters would generally occupy the four corners of the obverse, with the reverse usually remaining blank. While these characters featured varying styles of script, Emperor Huizong's noted skills in calligraphy demanded that he offer his input and artistry. During the early portion of his reign (1102-1106), a series of mostly 10 Cash denominated issues employed his own personal calligraphic style, known as the "shòu jīn" (slender gold) script. This iconic writing was admired for its "iron strokes" and "silver hooks," presenting a forceful yet elegant overall appearance. Contemporaneous with these "slender gold" issues was a series featuring the rather ubiquitous "seal script," whereby the characters took upon a softer, far less jagged look, with many perpendicular and parallel lines. This form of script also presents a degree of elegance through its seemingly malleable approach.

Despite the direction and overall stability of the Northern Song dynasty during the reign of Emperor Huizong, the cash coins from this period offer a glimpse into his desire for elegance and artistry, and an overall push toward the aesthetic. This numismatic beauty can be seen as camouflaging the political roiling which was taking place and ultimately caused the shrinking and forced moving of the Northern Song to simply the dynasty's portion in the south.

北宋崇寧通寶折十。正面為"崇寧通寶";反面光滑。此版別而言做工精細,原始幣面。中國古錢收藏中不可或缺的一枚。 北宋南遷前的倒數第二位皇帝,徽宗於1100年即位,1126年退位讓賢給長子趙桓,是為欽宗。在位期間,北宋版圖達致巔峰,南至大越及大理,西觸吐蕃及西夏,北及遼。儘管地域廣闊,徽宗並不是一名合格的統治者。他對藝術的熱枕遠超於管理國事。綜觀中國錢幣,直至大清滅亡之時,鑄造都非常公式化。大部分使用澆鑄方式製作銅幣,稱作銅錢。設計簡單,通常是圓錢中央帶方孔,可用繩索串起,有時一串可多達百枚,方便交易計算。正面四個文字個佔一方,反面多為空白。正面字體多變,徽宗擅長書法,因此銅錢上亦有其墨寶。徽宗在任早期(1102-1106)所發行的一系列的十文面值銅錢就使用了他自創的瘦金體。瘦金體為經典字體,鐵畫銀鉤,有力而典雅。另一常見字體為篆書,字形更圓潤柔和,垂直及平衡線條較多,典雅而又更平易近人。儘管徽宗治下的南宋不如人意,但期間鑄造的銅錢確是他追求藝術和雅意的體現,更具美感。雖然在宋徽宗的治理下,宋朝被迫遷都南方,版圖大大縮減,但期間發行的錢幣之精美,或能為其管治描補一二。

An interesting facet of Chinese numismatics that is not fully appreciated or understood. Several denominations are included such as cut 50 Cash and 100 Cash that have been cut down in a specific manner from Republican 100 Cash and 200 Cash. CHINA. Hunan Soviet. 20 Cash, ND (1931). NGC Genuine. An intriguing issue, characterized by a hammer and sickle design inside a 5-sided star countermark. Terms & Conditions – Showcase and Collectors Choice Auctions

- 1. Auction Basics. This is a public auction sale ("Auction Sale") conducted by bonded auctioneers, Stack's Bowers Galleries or Stack's Bowers and Ponterio (hereinafter referred to as "Auctioneer" and at times as "Stack's Bowers"). Bidding in this Auction Sale constitutes acceptance by you ("Bidder") of all the Terms of Sale stated herein. Bidders may include consignors who may bid and purchase lots in the Auction Sale consigned by the consignor or by other consignors pursuant to their consignment agreement with Stack's Bowers ("Consignor" or "Consignors"). A Consignor that bids on their own lots in the Auction Sale may pay a different fee than the Buyer's Premium charged to all other Buyers. Stack's Bowers reserves the right to include in any auction sale its own material as well as material from affiliated or related companies, principals, officers or employees. Stack's Bowers may have direct or indirect interests in any of the lots in the auction and may collect commissions. THE TWO PRECEDING SENTENCES SHALL BE DEEMED A PART OF THE DESCRIPTION OF ALL LOTS CONTAINED IN THE CATALOG. Where the Consignor has repurchased a lot and the lot is either returned to the Consignor or otherwise dealt with or disposed of in accordance with the Consignor's direction, or pursuant to contractual agreement, Stack's Bowers reserves the right to so note in the prices realized or to omit a price from the prices realized. Stack's Bowers and its affiliates may bid for their own account at any auction. Stack's Bowers and its affiliates may have information about any lot that is not known publicly, and Stack's Bowers and its affiliates reserves the right to use such information, in a manner determined solely by them and for their benefit, without disclosing such information in the catalog, catalog description or at the auction. Bidder acknowledges and agrees that Stack's Bowers and its affiliates are not required to pay a Buyer's Premium, or other charges that other Bidders may be required to pay and may have access to information concerning the lots that is not otherwise available to the public. Any claimed conflict of interest or claimed competitive advantage resulting therefrom is expressly waived by all participants in the Auction Sale. Lots may carry a reserve ("Reserve"). A Reserve is a price or bid below which the Auctioneer will not sell an item or will repurchase on behalf of the Consignor or for Stack's Bowers. Reserves may be confidential and not disclosed. The Buyer is the Bidder who makes the highest bid accepted by the Auctioneer, and includes the principal of any Bidder acting as an agent.
- 2. Descriptions and Grading. Bidder acknowledges that grading of most coins and currency in this Auction has been determined by independent grading services, and those that are not may be graded by Stack's Bowers. Grading of rare coins and currency is subjective and, even though grading has a material effect on the value of the coins and currency, grading may differ among independent grading services and among numismatists. Stack's Bowers is not responsible for the grades assigned by independent grading services, and makes no warranty or representation regarding such grades. Bidder further acknowledges and agrees that grades assigned by Stack's Bowers and lot descriptions are based solely upon an examination of the coins and currency and are intended to identify coins and currency and note any perceived characteristics. However, coin grading and descriptions are subjective. Stack's Bowers does not warrant the accuracy of such grading or descriptions, nor do they in any way form the basis for any bid. All photographs in this catalog are of the actual items being sold but may not be the actual size or to scale.
- 3. The Bidding Process. The Auctioneer shall have the right to open or accept the bidding on any lot by placing a bid on behalf of the Consignor or his or her agent; a Bidder by mail, telephone, Internet or telefax; or any other participant in the Auction Sale. Bids must be for an entire lot and each lot constitutes a separate sale. All bids must be on increment as established by the Auctioneer, or half increment (a cut bid). Non-conforming bids will be rounded down to the nearest half or full increment and this rounded bid will be the bidder's high bid. No lot will be broken up unless otherwise permitted by the Auctioneer. Lots will be sold in their numbered sequence unless Auctioneer directs otherwise. All material shall be sold in separate lots to the highest Bidder as determined by the Auctioneer. Auctioneer shall have the right in its sole and absolute discretion to accept or decline any bid, establish bid increments, challenge any bid or bidding increment, to reduce any mail bid received, adjudicate all bidding disputes, to exclude any bidder and to determine the prevailing bid. The Auctioneer shall have the right, but not the obligation, to rescind the acceptance of any bid and place the lot(s) for Auction Sale again. Auctioneer's decision on all bidding disputes shall be binding and final. For the mail and Internet Bidder's protection, no "unlimited" or "buy" bids will be accepted. When identical bids are received for a lot, preference is given to the first bid received as determined by the Auctioneer. A mail bid will take precedence over an identical floor bid; a Floor Bidder, Telephone Bidder

and Live Internet Bidder must bid higher than the highest mail bid to be awarded any lot. Cut bids are only accepted on bids greater than \$500 and each bidder may only execute one cut bid per lot. Bids will not be accepted from persons under eighteen (18) years of age without a parent's written consent which acknowledges the Terms of Sale herein and agrees to be bound thereby on behalf of the underage Bidder. The auction sale is complete when the Auctioneer so announces by the fall of the hammer or in any other customary manner.

THIS IS NOT AN APPROVAL SALE. Bidders who physically attend the Auction sale, either personally or through an agent ("Floor Bidders") should carefully examine all lots which they are interested in purchasing. Bidders who bid by telephone, either personally or through an agent, or through our live auction software receive a similar benefit as Floor Bidders in being able to actively participate in the live Auction Sale ("Telephone Bidders" and "Live Internet Bidders"). Except as otherwise expressly provided in these Terms of Sale, NO PURCHASED ITEMS MAY BE RETURNED FOR ANY REASON. All prospective Bidders who examine the lot(s) prior to the Auction Sale personally assume all responsibility for any damage that Bidder causes to the lot(s). Stack's Bowers shall have sole discretion in determining the value of the damage caused, which shall be promptly paid by such Bidder.

Certain auctions or auction sessions, will be conducted exclusively over the Internet, and bids will be accepted only from pre-registered Bidders.

STACK'S BOWERS IS NOT RESPONSIBLE FOR ANY ERRORS IN BIDDING. All Bidders should make certain to bid on the correct lot and that the bid is the bid intended. Once the hammer has fallen and the Auctioneer has announced the Buyer, the Buyer is unconditionally bound to pay for the lot, even if the Buyer made a mistake. Stack's Bowers reserves the right to withdraw any lot at any time, even after the hammer has fallen, until the Buyer has taken physical possession of the lot. No participant in the Auction Sale shall have a right to claim any damages, including consequential damages if a lot is withdrawn, even if the withdrawal occurs after the Auction Sale.

- 4. Bidder Registration Required. All persons seeking to bid must complete and sign a registration card either at the auction or online, or otherwise qualify to bid, as determined in the sole discretion of the Auctioneer. By submitting a bid, the Bidder acknowledges that Bidder has read the Terms and Conditions of Auction Sale, the descriptions for the lot(s) on which they have bid, and that they agree to be bound by these Terms of Sale. This agreement shall be deemed to have been made and entered in California. The Bidder acknowledges that the invoice describing a lot by number incorporates the catalog and Terms of Sale. Person appearing on the OFAC list are not eligible to bid.
- 5. Buyer's Premiums. A premium of twenty percent (20%) based upon the total amount of the hammer (minimum of \$20), will be added to all purchases of individual lots, regardless of affiliation with any group or organization (the "Buyer's Premium"). A reacquisition charge may apply to Consignors pursuant to a separate agreement, which may be higher or lower than the Buyer's Premium.
- 6. Payment. Payment is due immediately upon the fall of the auctioneer's hammer. Payment is delinquent and in default if not received in full, in good funds, within fourteen (14) calendar days of the Auction Sale (the "Default Date"), without exception, time being of the essence. Unless otherwise agreed in writing prior to the Auction Sale, all auction sales are payable strictly in U.S. Dollars or Hong Kong Dollars. All invoices will be made in United States Dollars. If paying in Hong Kong Dollars, Buyer's invoices will be credited with the amount of U.S. Dollars received from Auctioneer's bank. Payments may be made by credit card, Paypal, Union Pay, check, wire transfer, money order and cashier's check. Cash transactions will be accepted in the sole discretion of Stack's Bowers, and if accepted, for any cash transaction or series of transactions exceeding \$10,000, a Treasury Form 8300 will be filed. Contact Stack's Bowers for wiring instructions before sending a wire. Bank wires sent from a foreign bank are subject to an international bank wire fee of \$35. We accept payment by Visa, MasterCard, American Express, Discover or Paypal for invoices up to \$2,500, with a maximum of \$10,000 in any 30 day period. All payments are subject to a clearing period. In addition, defaulting Buyers will be deemed to have granted to Stack's Bowers, its affiliates and assignees, a security interest in: (x) the purchased lots and their proceeds, and (y) such sums or other items and their proceeds, in the possession of Stack's Bowers, its affiliates or assignees, to secure all indebtedness due to Stack's Bowers and its affiliated companies, plus all accrued expenses, carrying charges, seller's fees, attorney fees, and costs, until the indebtedness is paid in full. Buyer grants Stack's Bowers the right to file a UCC-1 financing statement for such items, and to assign such interest to any affiliated or related company or any third party deemed appropriate by Stack's Bowers. If the auction invoice is not paid for in full by the Default Date, a carrying charge of one-and-one-half percent (1-1/2%) per month may be imposed on the unpaid amount until it is paid in full. In the event this interest rate exceeds the interest

permitted by law, the same shall be adjusted to the maximum rate permitted by law, and any amount paid in excess thereof shall be allocated to principal. Buyer agrees to pay all reasonable attorney's fees, court costs and other collection costs incurred by Stack's Bowers or any affiliated or related company to collect past due invoices or to interpret or enforce the terms hereof or in any action or proceeding arising out of or related to the Auction Sale. All taxes, postage, shipping, if applicable, handling, insurance costs, the Buyer's Premium, and any other fees required by law to be charged or collected will be added to the invoice for any lots invoiced to Buyer. All lots shipped to foreign countries will be billed an additional one-half percent (1/2%) for insurance (minimum of \$10). For any lots delivered outside the country where the auction is hosted, the declaration value shall be the item'(s) hammer price plus its buyer's premium. Auctioneer shall not be liable for any loss caused or resulting from seizure or destruction under quarantine or customs regulation or confiscation by order of any government or public authority.
